GO GET 'EM HUTCH - Ep. 10 "The Edge of the Roof"
The chapter opens showing Hutch and Dariel making a thrilling escape from the chemical laboratory following the terrific explosion caused by the acid cauldron. Hutch decides to re-enter the building, hoping to get a trace of the shipping plans, when he overhears Lennox telling Fay Vallon that Sam Dailey, a tug-boat owner, knows the secret. Hutch rejoins Dariel and tells her to follow Fay, deciding to follow Lennox himself. As Lennox drives by in his car, Hutch springs to the rear of it, and clinging to the extra tire rides toward Dailey's dock.

Lennox passes the dock, and Hutch, seeing Margie about to come alongside with her tug, jumps from the car and hastens to join the girl. From Margie he learns that Dailey is on the roof of a warehouse where he is doing some repair work. By means of the tug, he makes a short cut and hurries to reach Dailey before Lennox. Due to Lennox, Hutch is denied admittance by the doorman, but hurrying to a rear entrance, he starts upward in an elevator. The elevator does not go to the top of the building, so, Hutch climbs to a small roof where he finds a grappling ladder. With this he makes his way upwards from one window-ledge to another. When he reaches the edge of the roof, Lennox sees him and warns Dailey that he is a madman. Dailey rushes to the edge and endeavors to plunge Hutch downward.
